

Maabarot Products Ltd. Investments - Call for Proposals

If your company / project is seeking investment for the development and commercialization of a natural consumer health product, we are your strategic partner

We are looking to invest in early stage companies focused on Nutraceuticals. We target dietary supplements, herbal medicine and functional food ingredients. Preferable candidates will have established IP and know-how in the field, have feasibility information and clinical data.

Our investment strategy includes a strong industry focus in addition to a commercialization potential. We are seeking opportunities that target unmet medical needs in commercially attractive markets.

Maabarot is committed to working hands-on with our portfolio companies towards generating value. We work closely with management teams for further development of our portfolio companies. Typically, we operate as a strategic investor and the project benefits greatly from our full support in the processes of product development and global marketing and from our extensive professional and logistical basis.
